

# Alabama Commission on Higher Education Alabama Public Four-Year Institutions 2020 Graduation Rates of Full-Time, First-Time Degree/Certificate-Seeking Undergraduates

## Within 150% of Normal Time (within 6 Years) to Program Completion

### Cohort Entry Year 2014

(Includes students who transfer and graduate at any Alabama or out-of-state institution)

**NOTE:** National Student Clearinghouse Graduation Rate reports are based on similar IPEDS criteria, but also include students who transferred to any Alabama public or private institution, or transferred out of Alabama to continue their education and complete their postsecondary education. Students that transfer and graduate are included in the graduation rate of the original institution. This measure rewards a university for the success of transfer students.
