**COMMISSION POLICY ON OFF-CAMPUS INSTRUCTION**

**CONTENTS**

- I. DEFINITIONS FOR THE REGULATION OF OFF-CAMPUS INSTRUCTION
- II. GUIDELINES FOR THE REGULATION OF OFF-CAMPUS COURSES
- III. GUIDELINES FOR THE REGULATION OF OFF-CAMPUS PROGRAMS
- IV. Attachment 1: STATE BOARD OF EDUCATION APPROVED SERVICE AREAS OF TWO-YEAR COLLEGES
- V. Attachment 2: SERVICE AREAS OF UNIVERSITIES BY COUNTY

**DEFINITIONS FOR THE REGULATION OF OFF-CAMPUS INSTRUCTION**

1. Off-Campus Instruction: A course or program taken by a student or students at a location other than a Commission-recognized main or branch campus of the sponsoring institution. The Commission's policy on off-campus instruction applies to traditional instructional settings, i.e. face-to-face classroom instruction that occurs at a location away from the Commission-recognized main or branch campus of the institution. \*
  
2. Service Areas: For the purposes of off-campus instruction, service areas for the two-year colleges are those determined by the State Board of Education. Service areas for senior institutions are determined by the Commission, using the following considerations: 1) proximity of the off-campus site to the sponsoring institution; 2) relationship of the off-campus site to the sponsoring institution based on student source reports that are produced using data from the Alabama Statewide Student Database; and 3) the mission of the institution.

\* Adapted from a Georgia Board of Regents definition

## **GUIDELINES FOR THE REGULATION OF OFF-CAMPUS COURSES**

1. The following sites are exempt from Commission approval:

a. Statutory exemptions.

- 1) Sites at which the Fall 1978 registrations exceeded 500 class enrollments
- 2) University sites that were operated prior to 1960
- 3) Sites located on military reservations
- 4) Business and industry sites where only their employees are enrolled in the off-campus courses

b. Additional exemptions approved by the Commission.

- (1) Off-campus prison sites where courses are taught exclusively for inmates and prison employees
- (2) Courses offered on an individual study basis
- (3) Study abroad
- (4) High school sites where courses are taught exclusively to high school students enrolled in early admission, accelerated or dual enrollment/dual credit programs
- (5) Two-year college sites located within their respective State Board approved service areas (refer to Attachment 1)
- (6) University sites located within their respective service areas (refer to Attachment 2)

The following stipulations apply to exemptions b. (4), (5) and (6) above:

- Information items will be provided to the Commission for any **new** sites, i.e. sites that have not previously been recognized by the Commission either by formal approval or by information item.
- Since there are instances in which two-year colleges and universities are located within overlapping areas, care must be taken to avoid the unnecessary duplication of lower division courses. For this reason, a university shall not offer lower division courses in the home county of a two-year institution main campus that offers similar courses without the written consent of the two-year institution, while a two-year institution shall not offer courses in the home county of a university main campus which offers similar courses without the written consent of the university. This stipulation does not apply to situations in which a university and a two-year college are located in the same county. In these situations, each institution may offer courses within the shared area, but they should work together to avoid the unnecessary duplication of course offerings.
- A university shall not offer courses in the service area of another university that offers similar courses without the written consent of the resident university.

- All universities that are located in the same county or which share service areas may offer courses within the shared area, but they should work together and in conjunction with the Commission to avoid the unnecessary duplication of course offerings.
  - It is desirable in most instances to have the closest qualified institution respond to off-campus credit course needs. \*
2. All sites that are not covered by one or more of the exemption categories above are subject to regular review and approval by the Commission. For these sites, the following regulations apply:
    - a) New off-campus site proposals (refer to Attachment 3) must be received by the Commission at least eight weeks in advance of the Commission meeting in which they will be considered.
    - b) A list of courses from which each term's schedule will be developed will be submitted with each new site proposal.
    - c) No off-campus site may be located nearer than 25 miles to a main campus of another institution that offers similar instruction without the written consent of that institution.
    - d) Once an off-campus site is approved it does not require approval in subsequent years, but annual reports are required (refer to Attachment 4).
  3. All sites, exempt and non-exempt, must be in full compliance with the Southern Association of Colleges and Schools/Commission on Colleges, (SACS/COC) guidelines and criteria pertaining to curriculum, faculty, administration, equipment, learning resources and student services. Council on Occupational Education (COE) guidelines will apply to institutions accredited by that agency.
  4. Regardless of exemption status, institutions will submit an annual follow-up report for each off-campus site by July 1 each year (refer to Attachment 4). The Alabama Department of Postsecondary Education may submit a comprehensive follow-up report for its entire system. The Commission must be notified if a site is discontinued so that annual reports will not be expected.
  5. Extensive course lists of upper division and graduate level courses that may constitute a program in any discipline will not be accepted. Should an institution desire to offer an extensive course list in a discipline, a proposal for an off-campus program should be submitted for Commission review and approval.
  6. All proposals for off-campus courses will be subject to a twenty-day public comment period prior to action or acceptance by the Commission. Proposals must be submitted electronically by the institutions and will be posted to the Commission website for public review and comment. At the end of the twenty-day period, the Commission staff will compile the comments and send them to the applicant institution for response.
  7. The Commission retains the authority to monitor compliance with the guidelines. If infractions are found, they will be referred to the appropriate governing board for corrective action.
  8. Off-campus instruction should be self-supporting; i.e. costs should be covered by tuition, fees, and extramural support. The Commission will not include credit hours

and enrollment generated by off-campus instruction in its formula calculations in developing institutional budget recommendations.

\* Based on a Georgia Board of Regents policy

## **GUIDELINES FOR THE REGULATION OF OFF-CAMPUS PROGRAMS**

In addition to all criteria stated for the approval of off-campus courses, the following additional criteria shall apply to the approval of off-campus instructional programs:

1. **Location of Programs:** Complete degree programs may only be offered at Commission approved sites. Distance from the offering institution to the proposed off-campus sites will be a primary consideration in the delivery of off-campus programs, unless it can be demonstrated that the proposed program is the only one of its kind.
2. **Relationship to the Commission's Academic Program Inventory:** All programs to be offered off-campus must be listed in the Commission's Academic Program Inventory for the proposing institution.
3. **Strength of the Existing On-Campus Program:** Only programs which are academically strong and productive on the main campus should be offered off-campus. Information related to the main campus program must be provided. This includes: (a) headcount enrollment data for the preceding five academic years, (b) completion rates for the preceding five academic years as reported to the National Center for Educational Statistics through the Integrated Postsecondary Education Data System (IPEDS), and (c) current accreditation status, if programmatic accreditation is available. If graduates of the program are required to pass a certification or licensure examination, the institution must provide documentation related to the performance of its graduates on such an examination. The institution must also include data related to the placement rates of graduates of the program. Exceptions to this rule may be considered, based on 4, 5, and 6 following.
4. **Adequate Student Demand:** The institution must provide documentation of strong student demand, along with graduation projections for the first five years of operation at the proposed site. Post-implementation conditions on enrollment, graduation rates and job placement similar to those placed on the approval of new academic programs will be placed on the approval of off-campus programs. If a program is to be offered on a limited one-time basis, this must be stated. In such cases, student demand, enrollment projections, and graduation projections will be applied accordingly.
5. **Need for the Program:** The institution must provide documentation that there is significant unmet need (employer demand) which cannot be met by the campus-based program or by other similar programs in the State.
6. **Effect on the Existing On-Campus Program:** In supporting documentation, the institution must explain potential effects of the proposed off-campus program on the resources available to and the quality of the program on the main campus. The institution must also provide documentation that the Southern Association of Colleges and Schools and any professional accreditation agencies, if applicable, have been notified of the institution's intent to offer the proposed program off-campus. Documentation must be provided that required clearances have been received from the appropriate accreditation agencies.

7. Clinical Sites: If the proposed program requires a clinical component (example: allied health programs), signed clinical agreements with appropriate agencies sufficient in number to accommodate the projected enrollment in the program must be provided. These agreements must indicate the total number of clinical slots that will be available at each clinical site.
8. Admission and Program Completion Requirements: Admission and program completion requirements for a proposed off-campus program must be the same as the requirements on the main campus.
9. All proposals for off-campus programs will be subject to a twenty-day public comment period prior to action or acceptance by the Commission. Proposals must be submitted electronically by the institutions and will be posted to the Commission website for public review and comment. At the end of the twenty-day period, the Commission staff will compile the comments and send them to the applicant institution for response.
10. If an institution is found to be offering an off-campus program without the approval of the Commission, the Commission staff will notify the institution in writing regarding the violation and may conduct an on-site visit to confirm the non-compliance with Commission policy, if necessary. Following this review, the Commission will take appropriate action concerning the violation.
