VI. EXECUTIVE DIRECTOR’S REPORT
Commissioner Amy Shipley Price, Vice Chair

- Has served on the Sylacauga City Schools’ Board of Education for 10 years and is currently the president
- On May 3, 2024, the *Yellowhammer News* quoted Commissioner Price in response to Alabama’s nursing pass rates exceeded the national average as follows:

  “You can imagine, being a freestanding, rural hospital, partnerships are very important to not only our existence but to our sustainability, and so when we look over our partnerships, I can’t think of one that’s more important to us today than the good work community colleges are doing in their programs. It’s really paying off in terms of putting people to work with credentials to meet the demands of healthcare today.”

THE ASPEN INSTITUTE NAMES WALLACE STATE COMMUNITY COLLEGE (HANCEVILLE, ALA.) AS A FINALIST FOR $1 MILLION 2025 ASPEN PRIZE

WASHINGTON D.C., June 11, 2024 – Today, the Aspen Institute named Wallace State Community College (Hanceville, Ala.) as a finalist for the 2025 Aspen Prize for Community College Excellence. The $1 million award is the nation's signature recognition of strong performance among community colleges. The institutions selected for this honor stand out among more than 1,000 community colleges nationwide as having high and improving levels of student success, as well as equitable outcomes for Black and Hispanic students and those from lower-income backgrounds.

“We are honored to be recognized by the Aspen Institute among this most elite group of institutions,” said Wallace State Community College President Vicki Karolewics. “Wallace State has been committed to achieving the highest levels of success for our students for many years, so that students regardless of their backgrounds are equipped to enter the workforce in a rewarding career or continue to excel upon transfer to a university. Our recognition reflects the ongoing commitment of our outstanding faculty and staff, and the support of the communities and students we serve.”

Awarded every two years, the Aspen Prize honors colleges with outstanding performance in six critical areas: teaching and learning, certificate and degree completion, transfer and bachelor's attainment, workforce success, broad access to the college and its offerings, and equitable outcomes for students of color and students from low-income backgrounds. The winner will be announced in the spring of 2025.
Research Fellows
Dr. Nicholas Bolden

Nicholas Bolden is an Associate Professor of Public Administration and Policy at Columbus State University. His research examines economic and workforce development policies and social factors, such as income inequality, poverty, and their influence on career, education, and labor outcomes.

Nicholas’ publications have appeared in Journal of Economics and Sustainable Development, and Journal of Regional Analysis and Policy. As an ACHE Research Fellow, he assists with various areas related to workforce development and FAFSA challenges in Alabama.

Nicholas holds a Ph.D. in Public Administration and Policy from Auburn University.
Deana Goodwine

Deana Goodwine is currently a Ph.D. student at Auburn University majoring in Adult Education. She has a M.S. in Instructional Leadership from Samford and a M.S. in Postsecondary Education from Troy.

She currently serves as Director of Workforce Development for the Sylacauga City Schools where she is a National Board-Certified Teacher and was named the Southern Regional Business Education Teacher of the Year in 2016.

Her research interests include adult education with an emphasis on credentialing.

Deana currently resides in Birmingham with her husband, Allen. They have two adult children.
Natalie Millar

Natalie Millar is an economist and a research fellow at the Hoover Institution. Natalie works on topics related to the economics of education and labor. Her primary research focuses on the returns to alternative credentials, public-private partnerships, and the intersection between these alternative credentials and the traditional education system.

In addition to being a Research Fellow of ACHE, Natalie is also a Postsecondary Career and Technical Education Research Fellow of North Carolina State University.

She received a Ph.D. in economics from the University of Alabama. Natalie is a native of Cullman and currently resides in Tuscaloosa.
Jessie Lynn Nichols of Prattville is currently a Ph.D. candidate at Auburn University in Career and Technical Education. She has a B.S. in Agriculture Communications and a M.S. in Agri-Science Education.

Since her reign as 2022 Miss Rodeo USA, Jessie Lynn, also known as “America’s Singing Cowgirl”, has been recognized as an ACM, CMA, and Grammy Recording Artist. She also coaches and mentors young equestrians and serves as the host, producer, and creator of Be A Dreamcatcher podcast.

Jessie Lynn aims to work in higher education to promote, invest, and encourage students of all ages to set and achieve goals they thought would never be possible.

*Pass-through Alabama A&M to Miles College
**Pass-through West Alabama to Stillman College
HB145, the 2025 Education Trust Fund (ETF) Budget

• 10% increase in the agency’s budget over last year.

• Existing lines that will increase, compared to the 2024 budget include:
  • $545,231 for O&M
  • $80,000 for FAFSA Completion
  • $175,000 for SREB
  • $3,358,162 for National Guard Scholarships
  • $500,000 for the Student Assistance Program
  • $500,000 for the Educational Grants Program
  • $200,243 for the Articulation Reporting System (STARS)
  • $100,000 for the Soil and Water Conservation Committee Program
  • $15,000 for Black Belt Treasures
  • $25,000 for Alabama Civil Air Patrol
  • $1,050,000 for Resource Conservation and Development Program (RC&D)
  • $100,000 for AKEEP Education and Teacher Recruitment Partnership
**HB145, the 2025 Education Trust Fund (ETF) Budget**

- **New lines in ACHE’s budget include the following:**
  - $50,000 for Study Alabama
  - $100,000 for Indian Affairs Scholarships
  - $200,000 for the Scottsboro Boys Museum
    - (split between museums in Scottsboro and Decatur)

- **Existing lines that will decrease, compared to the 2024 budget, include:**
  - $400,000 for Retain Alabama - the amount reduced is in connection with one of our subcontractors for the funding
  - $100,000 for the Humanities Foundation

Increases and decreases are a big part of the process: many seek funds, limited funds, and changing legislative and gubernatorial priorities.
HB144 Supplemental Budget

- HB144 provides supplemental (one-time) funds to ACHE as follows:
  - $4,500,000 for the (Re)Engage Alabama Grant Program pursuant to Act 2023-539;
  - $4,000,000 shall be used for the Deferred Maintenance Program for Historically Black Colleges and Universities in the state with no matching fund requirements by the institution receiving a grant;
  - $2,500,000 for the Birmingham Zoo – Alabama Veterinary Teaching Hospital;
  - $270,000 for the Best and Brightest STEM Pilot Program pursuant to the provisions of Act 2020-204;
  - $850,000 shall be used for the EarlyWorks Museum in Huntsville;
  - $250,000 shall be used for the NCAA Women's Basketball Tournament;
  - $250,000 shall be used for the Para-Cycling Road World Championship;
  - $500,000 shall be used for the SEC Baseball Tournament;
  - $100,000 shall be used for Selma University;
  - $200,000 shall be used for the Southern Museum of Flight; and
  - $500,000 shall be used for the USS Alabama Battleship.
New Laws that Impact Higher Education

- **HB147.** This bill makes supplemental appropriations from the ETF Advancement and Technology Fund; to the public institutions in the amount of $191,590,000;

- **HB148.** Appropriation of $14,816,579 to Tuskegee University.

- **HB149.** Appropriation of $1,176,157 to Talladega College.

- **HB284.** This bill will require qualifying schools receiving tuition reimbursement benefits on behalf of veterans and their spouses, widows, or children under the act to make use of offsets and write offs of unpaid educational fees.

- **HB308.** This bill amends the alternative teacher certification path to include approval by a member of the Council for Higher Education which specializes in educator preparation.

- **HB346.** This bill establishes the Alabama Workforce Housing Tax Credit.

- **SB55.** Requires the State Personnel Director to regularly assess the requirements for employment within classifications of positions in the state service and identify classifications for which the requirements may be reduced.
New Laws that Impact Higher Education

• **SB129.** Prohibits certain public entities from maintaining an office, program, or endorsement that promotes diversity, equity, and inclusion programs. Public institution of higher education will be required to designate multioccupancy restrooms based on biological sex.

• **SB247.** This bill changes the Department of Labor to the Department of Workforce and transfers certain state and federal programs from the Department of Commerce to the Department of Workforce.

• **SB253.** This bill provides for the following:
  • Different pathways toward earning a high school diploma based on the further workforce or continuing education plans of the student;
  • The upgrade or additional construction of career and technical education centers; and
  • The Alabama Short-Term Credential Program to offer additional scholarships for the training of individuals through the Alabama Community College System.
Alabama education groups still trying to counter low FAFSA numbers

By Mary Sell | Alabama Daily News and Alabama Daily News

Significantly fewer Alabama high school seniors filled out this year the federal application for student aid than in previous years and, even though school is out, education officials are still trying to reach graduates and boost application numbers.

“The U.S. Department of Education’s horrific rollout of the new (Free Application for Federal Student Aid) significantly impacted the number of high seniors across the country that have completed the FAFSA,” Jim Purcell, executive director of the Alabama Commission on Higher Education, told Alabama Daily News.
For low-income students, FAFSA can be a lifeline. When it didn’t work, they were hardest hit.

USA TODAY’s analysis shows a sharper drop in processed applications among low-income schools compared to their high-income...

Comparison of States’ Funding for Public Higher Education
Alabama appropriates a smaller percentage of its state higher education funding for financial aid than any other SREB state.
In Alabama, the tuition share (students’ portion) equates to over half of the revenue per FTE.
Alabama’s net tuition per FTE is the fourth highest in the country.
Public Higher Education Appropriations per FTE by State, FY 2023 (Adjusted)

Tennessee, Alabama, Georgia, North Carolina, and Maryland appropriate more per FTE than the national average.

Two-Year Colleges 1.93 AL is the highest
Four-Year Universities 1.21 AL is 12th highest

Index to U.S. Average 1.32

$3,990

SREB States

SOURCE: State Higher Education Executive Officers Association
Alabama ranks as the third highest total education revenue per FTE.
Alabama’s Fiscal Support for Higher Education per $1,000 of Personal Income Fiscal Years 1962-2023

Current Support Levels on Par with Support Levels from Late-1980s and Early-1990s Levels!

Alabama is funding Higher Education at late-1980s and early-1990s levels!

VII. DISCUSSION ITEMS
Artificial Intelligence

presented by

Dr. Stephanie C. Dolan
Tomorrow’s Transformations: AI, the Future Workforce, and Higher Education

- Explore the rapidly evolving concept of Artificial Intelligence (AI)
- Discover how AI is transforming industries, redefining future workforce, and creating new opportunities as well as challenges
- Share information about Alabama’s higher education AI grants and convenings
What is Artificial Intelligence?

Artificial Intelligence (AI) refers to the ability of machines and computer systems to mimic human intelligence and perform tasks that typically require human cognition, such as learning, problem-solving, and decision-making.

• **Traditional AI** excels at analyzing data and performing specific tasks.
• **Generative AI** focuses on creating new content, such as images, text, and music.

Traditional and Generative AI are not mutually exclusive as they can support each other.
# Traditional AI vs Generative AI

<table>
<thead>
<tr>
<th>Characteristic</th>
<th>Traditional AI</th>
<th>Generative AI</th>
</tr>
</thead>
<tbody>
<tr>
<td>Objective</td>
<td>Perform tasks based on predefined rules and existing patterns</td>
<td>Create new data</td>
</tr>
<tr>
<td>Strengths</td>
<td>Efficient, interpretable, and good at specific task-solving</td>
<td>Creative, innovative, handles uncertainty, novel applications</td>
</tr>
<tr>
<td>Weaknesses</td>
<td>Can be less creative and innovative, not as good at handling uncertainty</td>
<td>Not as good at pattern recognition and task-specific problem-solving as traditional AI systems</td>
</tr>
</tbody>
</table>
Healthcare
AI is revolutionizing medical diagnosis, drug discovery, and personalized treatment plans, leading to more efficient and accurate healthcare.

Robotics
Advancements in AI are enabling the development of more intelligent and autonomous robots for manufacturing, logistics, and service industries.

Finance
AI-powered financial modeling, fraud detection, and investment optimization are transforming the banking and fintech sectors.

Sustainability
AI is being utilized to optimize energy consumption, enhance environmental monitoring, and develop sustainable solutions for a greener future.
The 2024 Work Trend Index Annual Report (May 8, 2024) released by Microsoft and LinkedIn found that 45% of knowledge workers across the world are concerned that AI will replace them at their place of work.

Laurence Liew, Director for AI Innovation at AI Singapore, stated employees should not be concerned about AI replacing them but rather being replaced by “...someone who uses AI to outperform you.”
As AI and automation reshape industries, a substantial skills gap is emerging. Many workers do not possess the skills required to succeed in the AI-driven job market of the future. Closing this gap through education for upskilling and reskilling the employees of AI impacted programs will be essential to ensure not only a smooth transition but also to empower the workforce.

### Emerging Skills
- Data analysis
- Machine learning
- Coding
- Critical thinking
- Creativity
- Digital literacy

### Upskilling and Reskilling Efforts
- Online courses
- Apprenticeship programs
- Lifelong learning initiatives
- Employer-sponsored training
AI is Already in the Workplace

2024 Work Trend Index Annual Report (May 8, 2024) reported the following:

- 66% of leaders indicate they would not hire a person without AI skills
- 71% would rather hire a less experienced candidate with AI skills than one with more experience without AI skills

However, these leaders who acknowledge the value of employees with AI skills are not developing and training their own people:

- 45% are not currently investing in AI tools or products for employees
- Only 39% of employees who use AI at work received AI training from their employers
- Only 25% of companies are planning to offer training on Generative AI in 2024
Generative AI and the Future of Work in the U.S.

McKinsey Global Institute (July 26, 2023) reported the following:

• By 2030, **12 million** more occupational transitions may be required as people leave declining lines of work and economy moves toward higher-wage jobs.
  • Lower-wage-job employees are more likely to need to change occupations up to **14 times** than those in the higher-wage jobs and will need additional skill sets to do so successfully.

• U.S. will require workforce development on a larger scale along with additional extensive hiring methods from employers, such as...
  • Hire based on skills and competencies rather than formal qualifications;
  • Recruit from underrepresented groups, including rural workers and individuals with disabilities; and
  • Provide training that adapts to the company’s changing needs.
Generative AI and the Future of Work in the U.S.

Nexford University (January 9, 2024) reported the following:

- By the mid-2030s, AI could result in **30% of jobs becoming automated**, such as...
  - Customer service representatives, receptionists, bookkeepers, salespeople, research analysts, warehouse workers, and insurance underwriters
- Yet, many industries and career options should **not** be replaced by AI, such as...
  - Teachers, lawyers, judges, administration, HR managers, psychologists/psychiatrists, nurses/doctors/surgeons, computer system analysts, etc.
- Ways to **stay ahead of the AI era** in the workplace are to...
  - Embrace lifelong learning with the flexibility and willingness to change
  - Develop soft skills (AI has yet replicated human emotional intelligence and creativity)
  - Specialize one’s skill set and knowledge
Significant Considerations of AI

Privacy and Data Protection
AI systems often require vast amounts of data, raising concerns about personal privacy and data security. Robust regulations and safeguards are necessary to ensure responsible data collection and usage.

Algorithmic Bias
AI models can perpetuate and amplify societal biases if not carefully designed. Addressing bias in the development and deployment of AI is critical for fair and equitable decision-making practices.

Transparency and Explainability
As AI systems grow more complex, their decision-making processes can become less obvious. Ensuring transparency and explainability is essential for building trust and accountability.

Ethical Accountability
With AI systems making critical decisions, there is a need to establish clear ethical frameworks and guidelines to ensure AI is developed and used in a responsible and beneficial manner.
AI in AL Higher Education

Artificial Intelligence in Alabama Higher Education

March 1, 2024
Hosted by The University of Alabama in Huntsville
In April, ACHE invited Alabama’s 38 public postsecondary institutions to submit a proposal to the AI Culture Grant to foster an AI culture among their students and faculty.

Grants of up to $5,000 were awarded in support of various AI learning opportunities and implementation strategies by way of courses, internships, and work-based/experiential learning.

Each institution was allowed two proposals, and many institutions had to review several applications to select the institution’s two submissions.

AI in Alabama

By preparing the workforce of today with the necessary upskilling and reskilling efforts and the workforce of tomorrow with transparency and ethical accountability, the potential of Artificial Intelligence can be unlocked to effectively drive innovation throughout Alabama.
VIII. DECISION ITEMS
A. Academic Programs

Staff Presenters: Dr. Robin McGill and Ms. Kristan White
Athens State University

1. Bachelor of Arts in Music Industry Studies (CIP 50.1099)

- The BA in Music Industry Studies will provide a baccalaureate pathway for music programs offered by Calhoun Community College, which is Athens State University’s top feeder institution.

- The program will be delivered at the Alabama Center for the Arts in Decatur, a state-of-the-art facility that offers approximately 45,000 square feet of performing arts space, in partnership with Calhoun Community College.
Motion, Decision Item A-1:

That the Commission approve Athens State University’s proposal to offer a Bachelor of Arts in Music Industry Studies.
Troy University

2. Doctor of Philosophy in Criminology (CIP 45.0401)

• While there are currently several master’s level programs in Criminal Justice, Criminology, or related fields, there is currently no doctoral option that would allow students to further their education to the doctoral level in this field.

• The program will prepare graduates for employment in academia and in policy and research organizations focused on criminal justice.

• The proposal is accompanied by letters of support from the Alabama Bureau of Pardons and Paroles and the Alabama Appleseed Center for Law and Justice, both attesting to the need for additional professionals with advanced training in Criminology and related fields.
Motion, Decision Item A-2:

That the Commission approve Troy University’s proposal to offer a Doctor of Philosophy in Criminology.
3. Master of Science in Artificial Intelligence in Medicine (CIP 11.0102)

• The proposed MS in Artificial Intelligence in Medicine will be among the first to offer a curriculum that will provide strong foundations of artificial intelligence (AI), a comprehensive understanding of existing AI applications for clinical care, design, and integration of AI in health care settings.

• The global AI in healthcare market size is expected to rise to $12.2 billion by 2030, and health science practitioners are increasingly working with AI and must be prepared to have data proficiency and work with rapid advances of this technology. The proposed program will position UAB as a leader in this industry.
Motion, Decision Item A-3:

That the Commission approve University of Alabama at Birmingham’s proposal to offer a Master of Science in Artificial Intelligence in Medicine.
University of Montevallo
4. Master of Education in Special Education (CIP 13.1001)

• Special education teachers are essential for supporting students with disabilities and diverse learning needs. By offering an MEd in this field, UM will be able to meet the educational needs of a wide range of students and ensure that they receive appropriate support and instruction.

• UM has previously offered master’s programs leading to Class A educator certification in Collaborative Special Education teaching fields, and the proposed program would revise the curriculum to align with new standards for educator preparation established by the Alabama State Department of Education (ALSDE).
Motion, Decision Item A-4:

That the Commission approve University of Montevallo’s proposal to offer a Master of Education in Special Education.
University of South Alabama
5a. Doctor of Philosophy in Environment and Society (CIP 03.0103)

• Through its transdisciplinary environmental and social sciences approach, the proposed program will allow USA to advance research that will directly benefit the communities and ecosystems along the Gulf Coast.

• The program will prepare graduates for employment as Environmental Scientists and Specialists (included on the Statewide In-Demand List) and Postsecondary Environmental Science Teachers.

• The proposal is accompanied by nine letters of support including The Nature Conservancy; NOAA Southeast Fisheries Science Center; Smithsonian Environmental Research Center; and Alabama Department of Conservation & Natural Resources.
Motion, Decision Item A-5a:

That the Commission approve University of South Alabama’s proposal to offer a Doctor of Philosophy in Environment and Society.
University of South Alabama

5b. Bachelor of Science in Mechanical Engineering – Aerospace Engineering (CIP 14.1901) – Substantive Modification

• USA is proposing to modify the Bachelor of Science in Mechanical Engineering at CIP 14.1901 to separate the undergraduate track in Aerospace Engineering and create a standalone Bachelor of Science in Aerospace Engineering at CIP 14.0201.

• USA began offering the Aerospace Engineering Track in its BS in Mechanical Engineering in AY 2019-20, along with a Biomedical Engineering Track. Under the proposed modification, students currently enrolled in the Aerospace Engineering Track may choose to complete the BS in Mechanical Engineering or switch to the new BS in Aerospace Engineering, which will include more aerospace-focused coursework.
Motion, Decision Item A-5b:

That the Commission approve University of South Alabama’s request for a substantive modification to the existing Bachelor of Science in Mechanical Engineering – Aerospace Engineering.
Request to Amend Post-Implementation Conditions

• The University of Alabama Huntsville (UAH) received Commission approval to offer the PhD in Aerospace Systems Engineering (CIP 14.0201), along with the related MS in Aerospace Systems Engineering, on March 11, 2011. The program was implemented as planned in Fall 2011 and produced its first graduate in AY 2014-15. The program has not met the required post-implementation condition for graduates.

• UAH has requested an extension of the post-implementation period for two additional years (AY 2023-24 and AY 2024-25) to produce enough graduates to meet the viability standard. ACHE staff is recommending approval of the request.
Motion, Decision Item A-6:

That the Commission approve University of Alabama in Huntsville, Doctor of Philosophy in Aerospace Systems Engineering (CIP 14.0201) extension request.
Bevill State Community College

7. Associate of Applied Science in Facility Maintenance Technician (CIP 15.0612)

• The proposed AAS in Facility Maintenance Technician is designed to prepare graduates for employment in occupations on the Statewide In-Demand Occupations List, such as Industrial Machinery Mechanics, and Maintenance and repair workers.

• The new program will require minimal funds to implement by utilizing existing resources and faculty from the College’s other career technical programs.
Motion, Decision Item A-7:

That the Commission approve Bevill State Community College’s proposal to offer an Associate of Applied Science in Facility Maintenance Technician.
The proposed AAS in Social Work Technology is designed to prepare graduates for employment as Special and Human Service Assistants, included on the 2022-2023 Statewide Demand Occupations List.

Demand for social workers is high in north Alabama and there are many roles in organizations that don’t require a bachelor’s degree in Social Work but require an understanding of the role and skills of a social worker. This degree is designed to meet those needs.
Motion, Decision Item A-8a:

That the Commission approve Calhoun Community College’s proposal to offer an Associate of Applied Science in Social Work Technology.
The proposed AAS in Airframe Aviation Technology is designed to prepare graduates for employment as Aircraft Mechanics and Service Technicians, which are included on the 2022-2023 Statewide and Region 1 Demand Occupations Lists.

The College has partnered with Pryor Field Regional Airport to repurpose an existing hangar as lab space for the program. The facility, which is immediately adjacent to the campus, is being upgraded to ensure that the program meets all requirements for certification through the Federal Aviation Administration (FAA).
Motion, Decision Item A-8b:

That the Commission approve Calhoun Community College’s proposal to offer an Associate of Applied Science in Aviation Airframe Technology.
8c. Associate of Applied Science in Aviation Powerplant Technology (CIP 47.0608)

- The proposed AAS in Airframe Aviation Technology is designed to prepare graduates for employment as Aircraft Mechanics and Service Technicians, which are included on the 2022-2023 Statewide and Region 1 Demand Occupations Lists.

- The College has partnered with Pryor Field Regional Airport to repurpose an existing hangar as lab space for the program. The facility, which is immediately adjacent to the campus, is being upgraded to ensure that the program meets all requirements for certification through the Federal Aviation Administration (FAA).
Motion, Decision Item A-8c:

That the Commission approve Calhoun Community College’s proposal to offer an Associate of Applied Science in Aviation Powerplant Technology.
9a. Associate of Applied Science and Certificate in Automotive Technology (CIP 47.0604)

- The proposed AAS and Certificate in Automotive Technology are designed to prepare graduates for employment as Automotive Service Technicians and Mechanics, which are included on the 2023-24 Statewide In-Demand Occupations List.

- This proposal includes letters of support from local employers attesting to the strength of the program.
Motion, Decision Item A-9a:

That the Commission approve Enterprise State Community College’s proposal to offer an Associate of Applied Science and Certificate in Automotive Technology.
9b. Associate of Applied Science and Certificate in Welding (CIP 48.0508)

- The proposed AAS in Welding is designed to prepare graduates for employment in occupations on the Statewide In-Demand Occupations List, such as welders, cutters, solderers, and brazers.

- This proposal includes letters of support from local business and industry leaders attesting to the strength of the program: Dorsey Trailer, ALFAB, Inc., and Utility Trailer Manufacturing Company.
Motion, Decision Item A-9b:

That the Commission approve Enterprise State Community College’s proposal to offer an Associate of Applied Science and Certificate in Welding.
B. Information Items

1. Extensions/Alterations to Existing Programs of Instruction
   a. Implementation of Non-Degree Certificate Programs
   b. Changes to the Academic Program Inventory
   c. Curricular Modifications to Existing Degree Programs

2. Updates to Academic Units

3. Implementation of Distance Education Programs

4. Annual Off-Campus Site Reports for Academic Year 2022-2023
B. Information Items

5. New Exempt Off-Campus Sites
   a. Central Alabama Community College: Talladega High School Career Technical Center
   b. Chattahoochee Valley Community College: East Alabama Medical Center
   c. Snead State Community College: Snead State Workforce and Career Institute
   d. Jacksonville State University: Southside High School
   e. Jacksonville State University: Lincoln High School
   f. Jacksonville State University: Sylacauga High School
   g. Alabama State University: Loveless Academic Magnet Program High School

6. Summary of Post-Implementation Reports
6. Summary of Post-Implementation Reports

a. Programs that Met Post-Implementation Conditions

- **Two-Year Institutions**
  - Gadsden State Community College, Associate of Applied Science Diagnostic Medical Sonography (CIP 51.0910)
  - Lawson State Community College, Associate of Applied Science and Certificate in Automotive Manufacturing Technology (CIP 15.0613)
  - Lurleen B. Wallace Community College, Associate of Applied Science in Diesel and Heavy Equipment Mechanics (CIP 47.0605)
  - Shelton State Community College, Associate of Applied Science and Certificate in Culinary Arts (CIP 12.0503)
  - Shelton State Community College, Associate of Applied Science and Certificate in Health Information Technology (CIP 51.0707)
6. Summary of Post-Implementation Reports

a. Programs that Met Post-Implementation Conditions

- **Two-Year Institutions**
  - Trenholm State Community College, Associate of Applied Science and Certificate in Automotive Manufacturing Technology (CIP 15.0613)
  - Wallace State Community College - Hanceville, Associate of Applied Science in Engineering Technology (CIP 15.0000)
  - Wallace State Community College - Hanceville, Associate of Applied Science in General Technology (CIP 47.0000)
6. Summary of Post-Implementation Reports

a. Programs that Met Post-Implementation Conditions

- **Four-Year Institutions**
  - University of Alabama at Birmingham, Master of Science in Computer Forensics and Security Management (Cyber Security) (CIP 11.1003)
  - University of Alabama at Birmingham, Master of Arts in Education in Reading (CIP 13.1315)
  - University of Alabama at Birmingham, Bachelor of Science in Biomedical Sciences (CIP 26.0102)
  - University of Alabama at Birmingham, Bachelor of Science in Genetics and Genomic Sciences (CIP 26.0801)
  - University of Alabama at Birmingham, Master of Science in Biotechnology (CIP 26.1201)
6. Summary of Post-Implementation Reports

a. Programs that Met Post-Implementation Conditions

- **Four-Year Institutions**
  
  - University of Alabama at Birmingham, Master of Arts in Anthropology of Peace and Human Rights (CIP 45.0299)
  
  - University of Alabama at Birmingham, Bachelor of Fine Arts in Musical Theatre (CIP 50.0509)
  
  - University of Alabama at Birmingham, Master of Science in Nuclear Medicine and Molecular Imaging Sciences (CIP 51.0905)
  
  - University of Alabama at Birmingham, Master of Social Work in Clinical/Medical Social Work (CIP 51.1503)
  
  - University of Alabama at Birmingham, Bachelor of Science in Public Health (CIP 51.2201)
6. Summary of Post-Implementation Reports

a. Programs that Met Post-Implementation Conditions

- **Four-Year Institutions**
  - University of Alabama at Birmingham, Doctor of Philosophy in Rehabilitation Science (CIP 51.2399)
  - University of Alabama at Birmingham, Master of Science in Management Information Systems (CIP 52.1201)
  - University of Alabama in Huntsville, Master of Science in Cybersecurity (Information Assurance and Security) (CIP 11.1003)
6. Summary of Post-Implementation Reports

b. Programs that Did Not Meet Post-Implementation Conditions Extension Requested

- Four-Year Institutions
  - University of Alabama in Huntsville, Doctor of Philosophy in Aerospace Systems Engineering (CIP 14.0201)
Motion, Decision Item B:

That the Commission accept the Information Items as presented.
C. ADJOURNMENT
