Any applicable prevention curriculum must be comprehensive and satisfy the following state mandates: Erin's Law, Jamari Terrell Williams Student Bullying Prevention Act, Jason Flatt Act, Price Hornsby Act (HB280 of the 2024 Regular Session), and Drugs and Alcohol. In addition, any program related to mental health should be flexible enough to focus on the greatest mental health needs for each individual school. 1346	The above appropriation shall be used as a dynamic and interactive remote learning model to deliver effective, highly engaging STEM education in regions of Alabama that struggle to reach desired student outcomes in math, science, and technology. Development and implementation of this innovative model shall be led by the STEM Council, working with a coalition of Alabama stakeholders including UAB Teach. The State Superintendent of Education shall collaborate with STEM Council to support this program to reimagine how STEM education is delivered, especially in hard-to-reach, high poverty, or traditionally under-served locations. The program will offer STEM learning pathways for grades 6-12, focusing on Algebra preparedness and success. It is the intent of the Legislature that funds appropriated for the remote learning project will be delivered in a phased approach, beginning with pre-Algebra and Algebra I courses and adding high school math and science courses. Dynamic and interactive courses will be delivered to schools in Alabama's underserved locations through a remote learning provider, using Alabama educators who will be co-located at a centralized hub to be identified by UAB Teach, to allow for effective teacher planning and collaboration, resource and technology support, and ongoing training. Ten percent of funding must be dedicated to rigorous assessment of the program, evaluating the impact on student learning as well as on-site educator professional development.
